## 2-Post Open Frame Rack *DNRRLDK Series*

800 lbs (363 kg) Weight Capacity

When strength and reliability are the highest priority, be sure to choose the Data/Networking Robust Rack (DNRR) from Hammond Manufacturing. Designed to support your rack-mount infrastructure, regardless of the application, the DNRR includes premium features not found on most other racks.

### Features:

- Constructed in 12-gauge steel.
- Our automated tapping process provides EIA-compliant 10-32 tapped rails **on the front** to ensure ease of mounting rack-mount equipment.
  - Includes marked rack unit dividers to aid in equipment mounting.
  - Don't forget to order your **Mounting Hardware**.
- To keep the rack upright when it is loaded with equipment, we've included a large base for freestanding support. Optionally, the base can be caster mounted when you need to move your rack.
- To keep it looking great, the DNRR undergoes a three-stage paint process which includes a coat of premium smooth black powder paint. Complies with the Greenguard guidelines for indoor air quality.
- In order to prevent any damage that may occur during transportation, assembly is required and we cover the DNRR in a thick cardboard carton.
- 800 lbs (363 kg) **static load rating**.
- TAA-compliant for GSA Schedule purchases.
- RoHS Compliant.
- Manufactured in North America within an ISO 9001:2015 certified facility.
