Wellington Seven Hi-Fi Amp WELLINGTON-7 Series

(Circa 1950's - No Longer In Production)

The Wellington Seven Hi-Fi Amp was a 10 watt mono amp developed by Hammond and sold in kit form back in the 1950's.

The schematic below is dated October of 1955 and can be downloaded in **PDF form here**.

It's no longer in production, so this page serves merely as a reference and an interesting look into our company history.
