

Electromechanical Locking Cabinet Handles *EL Serie*

Electromechanical locking can improve security and provide reports for cabinet use. While Hammond does not manufacture or sell third-party handles, we work with several leaders in the electronic locking industry to ensure our cabinets are compatible with their products. The following list includes a selection of popular handle manufacturers that offer products compatible with Hammond cabinets. Ask your local rep for information about our modification options, or see our **DRLK** page for non-standard locking options.

- **Assa Abloy** (Sells through distribution)
- **Borer**
- **Digitus Biometrics** (Sells direct and through distribution)
- **Dirak**
- **Emka** (Sells direct)
- **Southco**
- **TZ Data Cabinet Security**
- **Fath TANlock**
