

## Corporate Overview

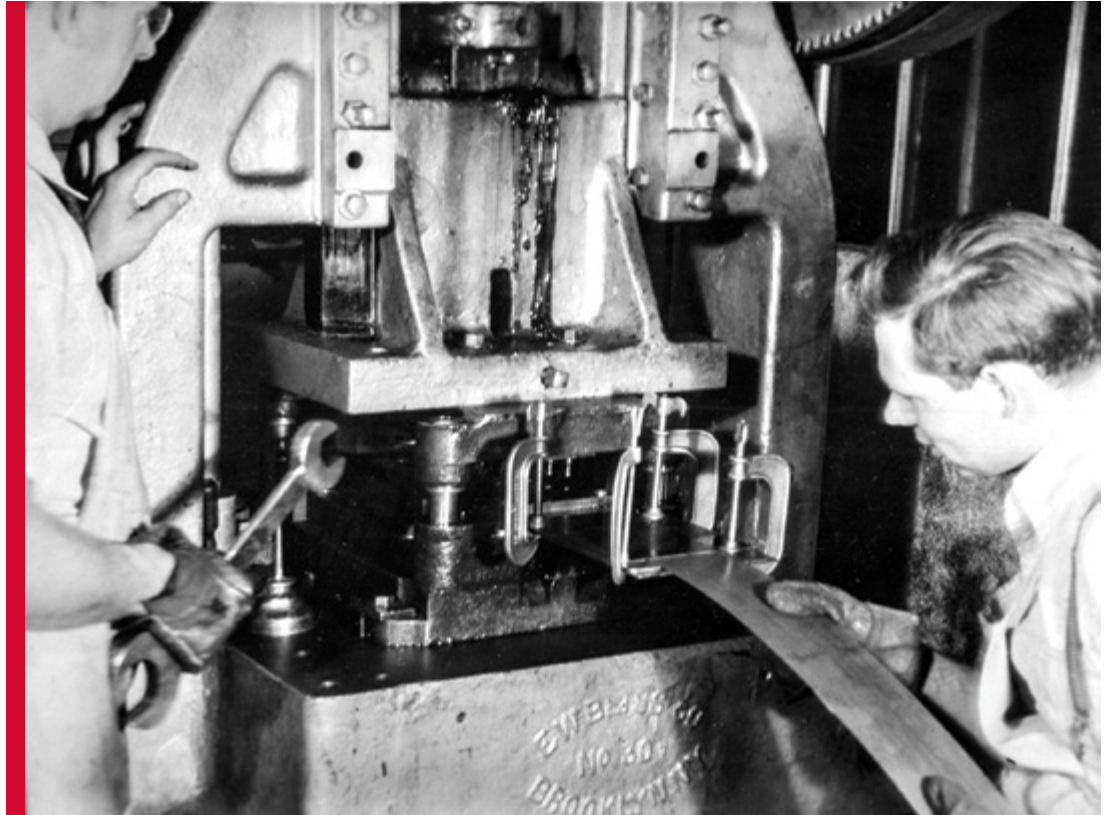

Over 100 Years  
& Four Generations

Server Racks and Cabinets  
Electrical Enclosures  
Outlet Strips  
Small Enclosures  
Electronic Transformers

# Quality Products. Service Excellence.

Hammond Manufacturing is a global company serving numerous markets and customers worldwide. The Hammond product package consists of 5 categories:

- Server Racks and Cabinets
- Electrical Enclosures
- Outlet Strips
- Small Enclosures
- Electronic Transformers

Fred Hammond, VE3HC (right) was part of the second generation of a fast growing family run business. Fred was one of six brothers and two sisters.

Hammond Manufacturing  
Distribution Center

Operating from facilities in Canada, the United States and the UK, Hammond offers a broad range of standard products, modification services and technical support.

Our customers include electrical, electronic and datacom OEM's/MRO's, utilities and institutions which are served through a network of agents and distributors.

A team of over 800 employees supported by a commitment to ongoing capital investment and our continuous improvement programs combine to affirm the Hammond reputation for quality. Ongoing efforts to differentiate ourselves through high levels of service and customer satisfaction are a key corporate focus. These are the cornerstones to our future success.

## Our Values

- We are dedicated to our customers. We provide quality products and service that create value for our customers.
- We are responsible to our shareholders. We provide an adequate return on their investment over the long term.
- We are committed to our employees. We provide competitive pay, open and frank communication and a safe work environment.
- We recognize the importance of our suppliers assisting us in our ability to serve our customers.

# Hammond Yesterday

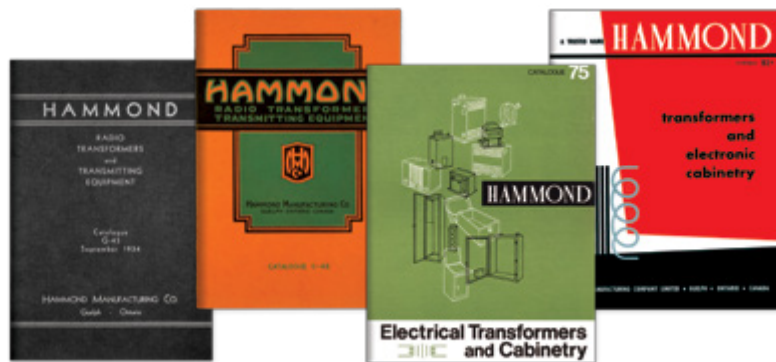

Hammond Manufacturing was founded in 1917 in Guelph, Ontario, Canada. In the early years, the Company manufactured radios, power amplifiers and battery eliminators. During the late 1920's Hammond focused its efforts on the manufacturing of transformers and enclosures for the broadcast and communications industries.

The increasing demand for electrical products of all kinds during the 1950's and 1960's created many opportunities for new products and diversification. During these years Hammond became a leading supplier of transformers and enclosures for the electrical and electronic industries.

Through the last three decades, the Company expanded its focus on the U.S. and International markets. It has formed several strategic alliances with U.S. and European companies in order to broaden its offering of enclosures and related accessories.

Hammond Manufacturing product catalogs, from left to right: 1934, 1935, 1975, 1982.

# Electrical Enclosures

Serving many commercial and industrial markets - automotive, mining, petrochemical, packaging, etc. - Hammond has a diverse customer base.

The product offering includes UL/CSA/NEMA wallmount enclosures, freestanding enclosures, operator interface systems and modular

enclosures designed to protect electrical equipment in numerous environments.

Electrical enclosure production utilizes powder painted

carbon steel, stainless steel and aluminum in facilities which incorporate the latest engineering and manufacturing technologies.

# Racks and Rack Cabinets

Hammond manufactures rack mounting solutions that optimize, store, and secure technology equipment. Our primary market verticals include voice/data, security, industrial IT,

audio/video, and data centers.

Our product offering comprises of open-frame racking systems; open and enclosed wall mount rack systems; NEMA Rated Industrial IT enclosures; Seismic

racks and cabinets; power management products; and the largest selection of rack accessories in the industry. Hammond's products are used in physical security, system

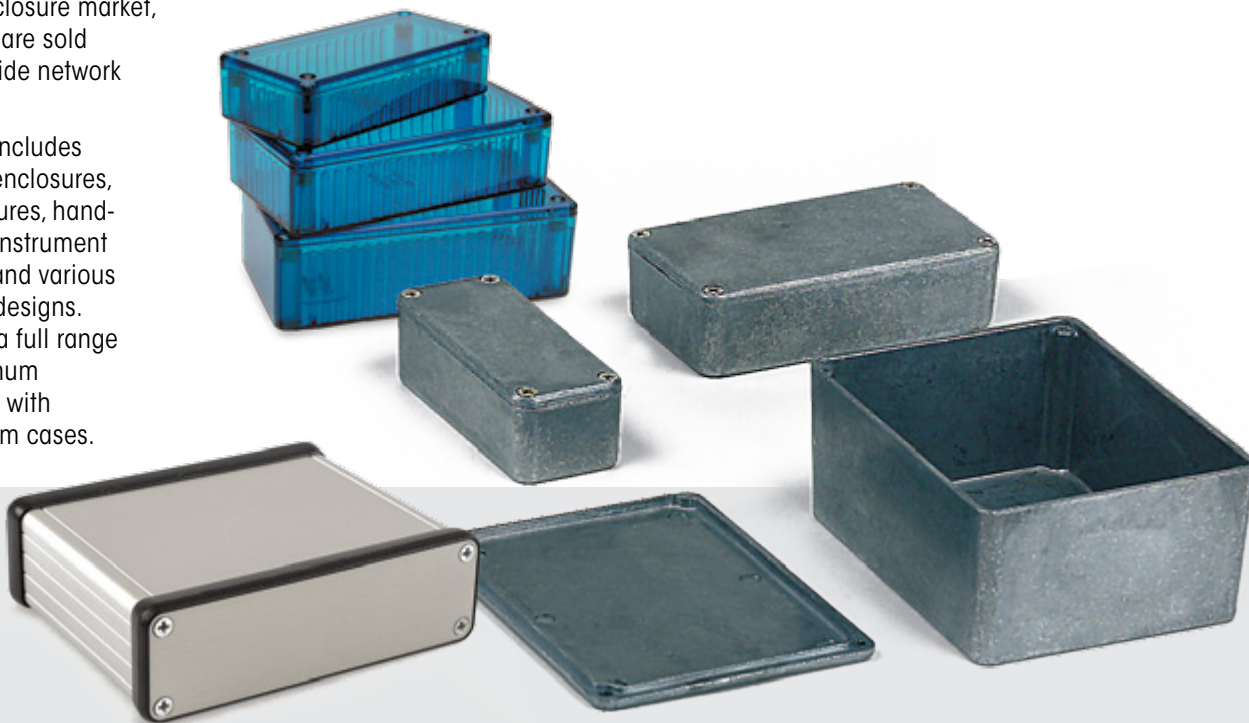

integration, and regulatory compliance applications in government, education, finance, retail, health care, test and measurement, manufacturing and data center sectors.

# Small Electronic Cases

Hammond is a global leader in the electronic enclosure market, and our products are sold through a worldwide network of distributors.

Our product line includes moulded plastic enclosures, watertight enclosures, hand-held enclosures, instrument cases, consoles, and various general purpose designs. Hammond offers a full range of die cast aluminum enclosures, along with extruded aluminum cases.

# Outlet Strips

Hammond has opened a focused factory in Waterloo, Canada for the production of outlet strips, surge suppressors and air movement accessories.

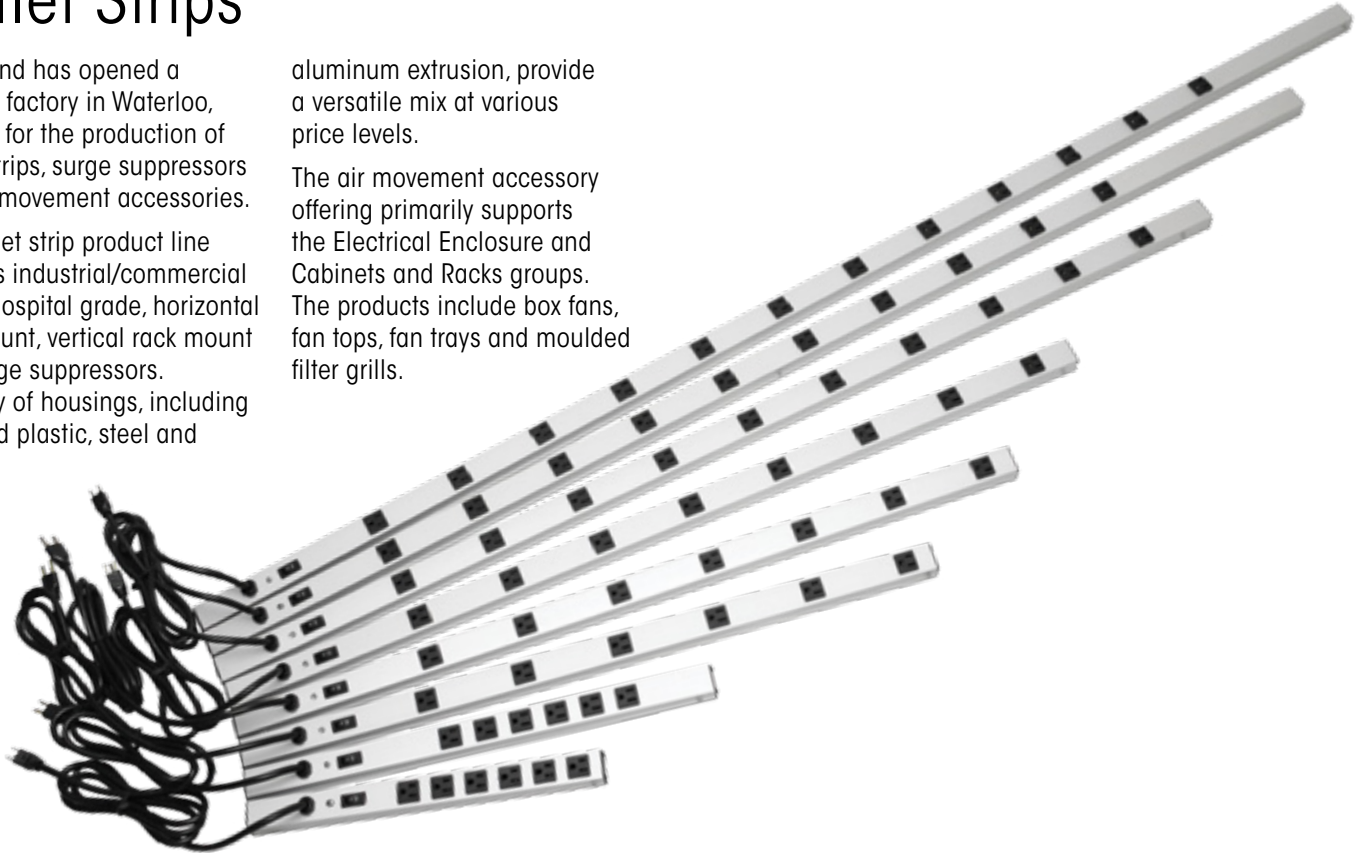

The outlet strip product line includes industrial/commercial grade, hospital grade, horizontal rack mount, vertical rack mount and surge suppressors.

A variety of housings, including moulded plastic, steel and

aluminum extrusion, provide a versatile mix at various price levels.

The air movement accessory offering primarily supports the Electrical Enclosure and Cabinets and Racks groups.

The products include box fans, fan tops, fan trays and moulded filter grills.

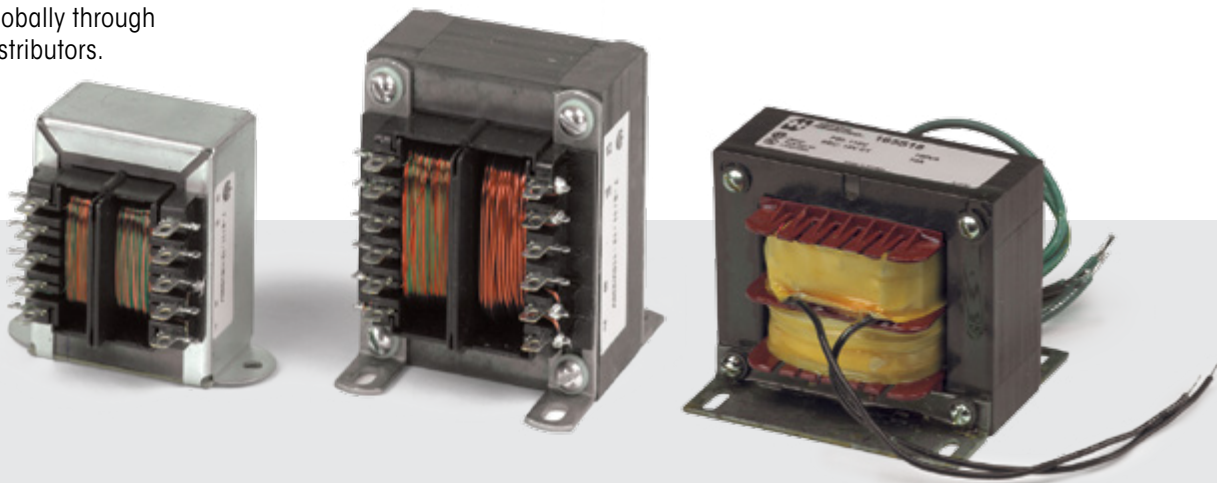

# Electronic Transformers

The design and manufacture of Electronic Transformers and wound components has been a Hammond strength for more than 80 years.

A broad catalog line of standard products, including power, pulse, audio, chokes, line and classic transformers, is marketed globally through agents and distributors.

Custom designs are supplied to avionics, telecom and instrumentation markets. Hammond products designed for classic tube audio applications are noted for quality and value by enthusiasts around the world.

The experienced design and operations team and a focused manufacturing facility combine in providing quality product leadership that continues to serve all parts of the world.

Hammond O.S. & Son - built radios,  
amplifiers, and battery eliminators.

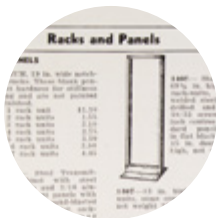

Backyard workshop - charging batteries, installing antennas, custom machining.

1927

1930

Transition into manufacture of transformers, wire wound resistors and broadcast racks/cabinets

Added NEMA enclosures

1950

1955

New factory built on  
Speedvale/Edinburgh  
Road in Guelph.

Hammond Manufacturing  
re-branded to current identify.

1976

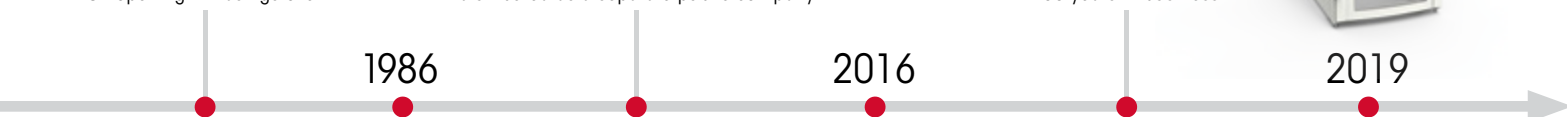

Hammond expands to the UK opening in Basingstoke.

Dry-type transformer business split off under new company, Hammond Power Solutions. Shares of Hammond Power Solutions distributed as a separate public company.

Hammond celebrates 100 years in business.

1980's

1986

Hammond goes public on Toronto Stock Exchange.

2000

2016

Guelph operations expands with an additional state-of-the-art manufacturing facility.

2017

2019

Hammond rack and cabinet division celebrates 85 years.

**85** YEARS  
MANUFACTURING  
RACKS & CABINETS  
SINCE 1934
