GUELPH, ONTARIO – July 21, 2011

To all employees and shareholders:

Lower levels of production, a high Canadian dollar and higher spending on everything from sales, new machinery and parking lot repairs hurt our profits in Q2.

Increasing material costs, a high Canadian dollar and a low growth marketplace will challenge us going forward.

Hammond Manufacturing Company Limited manufactures a broad range of products for the electronic and electrical products industry, including metallic and non-metallic enclosures, racks, small cases, outlet strips, surge suppressors and electronic transformers.
