NOTE: The interim financial results have not been reviewed by an auditor

GUELPH, ONTARIO – March 6, 2015

To all employees and shareholders:

High sales helped by a weakening Canadian dollar pushed us over the \$100 million sales level. The challenges ahead will come from the impact of the oil price collapse as well as increased interest costs as we move forward with our expansion plans.

Hammond Manufacturing Company Limited manufactures a broad range of products for the electronic and electrical products industry, including metallic and non-metallic enclosures, racks, small cases, outlet strips, surge suppressors and electronic transformers.
