GUELPH, ONTARIO – May 2, 2016

To all employees and shareholders:

The strong US dollar continues to provide us the opportunity to grow our business.

We caution that the impact of both unfavourable movements of exchange rates and the start-up expenses for our new rack factory could have negative impacts on the profitability for the second quarter of 2016.

Hammond Manufacturing Company Limited manufactures a broad range of products for the electronic and electrical products industry, including metallic and non-metallic enclosures, racks, small cases, outlet strips, surge suppressors and electronic transformers.
