

GRDT375 - GROUND KIT

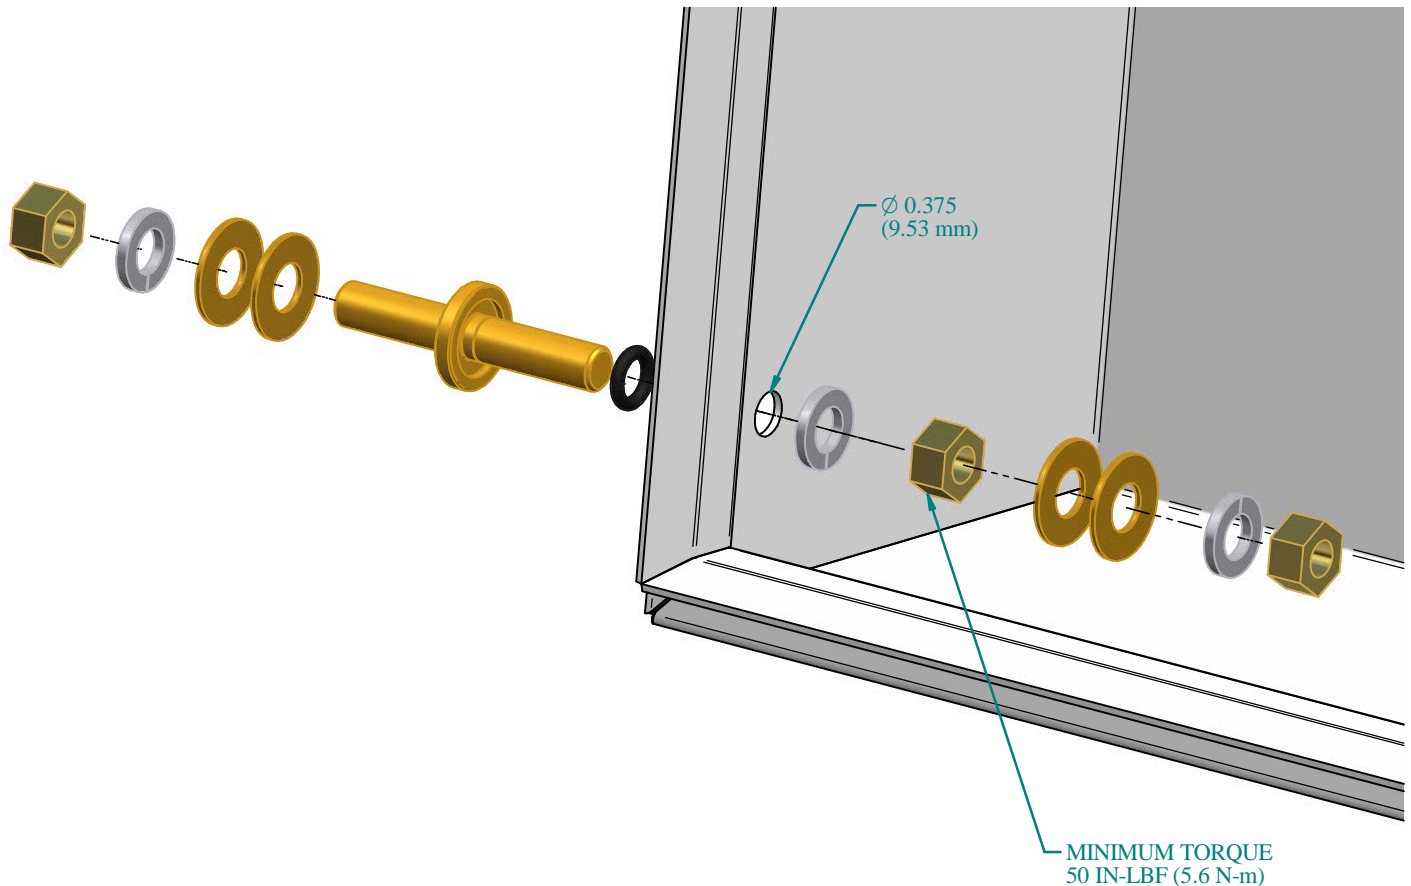

BUL86513

REV. B

Ground Kit provides a continuous ground through any enclosure body.

The brass ground lug will not ground the enclosure without either removing any exterior paint or installing ground wires as noted below.

To ensure proper bonding of all metal surfaces a suitable ground wire must be connected to enclosure body, inner panels and door.

Add internal 3/8 lock washer and nut, tighten to torque spec as noted.

Finish the installation with the balance of washers and nuts as shown.

ITEM #	QTY	DESCRIPTION
1	1	BRASS GROUND LUG
2	1	O-RING
3	4	FLAT WASHER
4	3	LOCK WASHER
