RHN4 - SERIES

ASSEMBLY INSTRUCTIONS FOR ALL SIZES OF: RHN4GY, RHN4LG, RHN4SS, RHN4S16, RHN4SSFDA, RHN4S16FDA

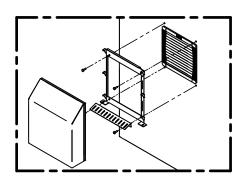

PARTS LIST:

- * 1/4 20 X 3/4 HEX SCREW 4PCS
- * 1/4 20 KEP NUT 4 PCS
- * M5 X 16 CAP SCREW 2 PCS
- * RAINHOOD 1 PC

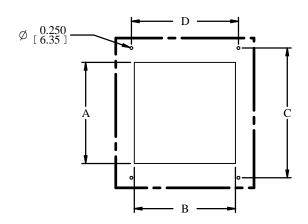

- * 1/4" WASHER 4 PCS
- * M5 X 25MM THUMB SCREW 2 PCS
- * DEFLECTOR 1 PC
- * FRAME 1 PC
- 1) Filter/fan to be installed before UL Type 12 / 3R / 4 / 4X rain hood is installed. Refer to filter fan installation manual.

2) Using frame piece, mark and drill (4x) 1/4" holes around filter fan in enclosure wall, refer to drill detail below. Install frame piece and spray deflector on the outside of the enclosure as shown with 1/4-20 hex screws. Using 1/4" dome sealing washer against the inside enclosure wall, tighten with 1/4-20 kept nut until sealing washer is flat.

DIMENSIONAL CHART - INCHES (MM)				
PART # (GY/LG/SS/FDA/S16)	A	В	C	D
RH20000N4	4.921 (125)	4.921 (125)	7.050 (179)	5.076 (129)
RH30000N4	6.969 (177)	6.969 (177)	9.291 (236)	7.323 (186)
RH40000N4	8.778 (223)	8.778 (223)	11.260 (286)	9.291 (236)
RH60000N4	11.457 (291)	11.457 (291)	13.949 (354)	12.071 (307)

ASSEMBLY INSTRUCTIONS FOR RHN4GY, RHN4LG, RHN4SS, RHN4S16, RHN4SSFDA, RHN4S16FDA

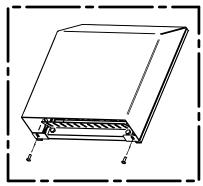

3) Place rain hood cover onto mounted frame by lining up cover slots with the 6 mounting hooks on the frame piece.

4) Insert wing screws or Allen fasteners through bottom tabs in frame and into the Pem-nuts on the cover. Tighten wing screw fasteners down by hand (standard) or with a 3mm allen key (security). As fasteners are tightened, cover will be pulled down onto the frame and the cover gasket will be compressed against the outer enclosure wall, creating a seal. Tighten until tabs on cover contact tabs on mounting frame (approximately 5 newton-meters torque).

Allen fasteners (security option)
